Main Street America Budget Guidelines

A Main Street program must have financial resources to carry out its annual and evolving program of work. The size of a program's budget will change as the program matures (in its early years, it may need less money than in its growth years).

General guidelines for minimum operating budgets are:

- Small town programs: \$40,000+ annually (populations of less than 5,000 people)
- Midsize community programs: \$60,000+ annually (populations between 5,000 - 50,000)
- Large town or urban neighborhood programs: \$100,000+ annually (community or neighborhood population greater than 50,000 people)

The budget should be specifically dedicated for the purpose of revitalizing the district:

- The Main Street program's budget should contain funds adequate to cover the salary and benefits of staff; office expenses; travel; professional development; and committee activities.
- Revenue sources are varied and broad-based, including appropriate support from the municipal government.
- There is a strategy in place to help maintain stable funding.
